**RE: RCRA Post-Closure Permit Renewal Application - Information Repository
Koch Nitrogen Company, Dodge City
EPA ID# KSD044625010**

Dear Mr. Shipley:

Your facility has been designated as the information repository for the subject Draft Hazardous Waste Facility Permit for the Koch Nitrogen Company, LLC facility located in Dodge City, Kansas. Because of the unrestricted public access of the Dodge City Public Library, the Kansas Department of Health and Environment (KDHE) is establishing your facility as an information repository for this permit. By providing the public with greater access to these records, it is our hope that they will be better informed to comment constructively on site activities and understand the appropriate issues.

The enclosed Administrative Record should be treated as a non-circulating reference; it should not be removed from the facility. Please do not discard or destroy these documents, but maintain them for reference by users of your library until KDHE has been consulted regarding their removal.

KDHE appreciates having the Dodge City Public Library serve as an information repository. If you have any questions, please contact me at (785) 296-1616 or espellman@kdheks.gov.

Sincerely,

Everett Spellman
Environmental Geologist
Hazardous Waste Permits Section
